

**PRICE LIST 2026**

## INFORMATION

Prices include the model, paint, and other materials needed for the build as well as my time. Build cost is determined by the size of the model and the amount of work needed to complete it.

**Prices are in British Pounds (GBP).**

All prices **exclude** shipping. Shipping cost will depend on where the model is going.

All models will be sent out **Tracked** and **Fully Insured**.

If paying in instalments, model will only be shipped after the final payment is made.

The larger 1/350 & 1/537 scale models are collection only as they are very fragile. •

In some cases, models may be shipped in parts to prevent damage and will require minimal assembly by the customer. ••

Models which are out of production will cost more, as they can be difficult to find.

Some models in the list have links to pictures of a completed build, though not necessarily that particular ship.

N/A on the list means that option is not available.

If you have any questions please email me [here](#) or DM me on [Pixelfed](#)

## STAR TREK: 1/1400 SCALE

MODEL	MATERIAL	LENGTH	NO LIGHTS	WITH LIGHTS
U.S.S. Enterprise NCC-1701	Resin	9 inches	£400.00	Not Available
